PROFESSIONAL EXPERIENCE

Full-Stack Developer — GETS Company

Mahdia, Tunisia | January 2024 – Present

Key responsibilities and achievements:

- Designed and developed a modular ERP system covering Finance, Human Resources, Payroll, and Project Management modules
- Architected a microservices-based backend ensuring high scalability and maintainability of ERP modules
- Implemented event-driven inter-service communication using RabbitMQ for seamless system integration
- Built and documented secure RESTful APIs using Spring Boot with PostgreSQL as the primary database
- Reduced API response time by 40% through advanced query optimization, indexing strategies, and caching
- Developed scalable, responsive frontend components using Next.js, TypeScript, and Tailwind CSS
- Enforced authentication and role-based authorization via JWT tokens and Spring Security
- Integrated Oracle Exadata for high-volume reporting and analytics
- Collaborated closely with UX/UI designers and QA engineers to deliver high-quality features
- Participated in Agile ceremonies: sprint planning, daily stand-ups, retrospectives, and code reviews

Full-Stack Developer — Glocal IT Solutions

Sfax, Tunisia | July 2018 – July 2023

Key responsibilities and achievements:

- Developed and maintained responsive web applications using React.js, HTML5, CSS3 and JavaScript (ES6+)
- Engineered backend systems and REST APIs using PHP and MySQL for high-traffic e-commerce platforms
- Optimized database schemas, wrote stored procedures, and improved query performance by 30%
- Designed intuitive user interfaces following UX/UI best practices, increasing user engagement
- Mentored junior developers and conducted code reviews to maintain code quality standards
- Worked in Agile/Scrum sprints and delivered features on schedule across multiple client projects

Freelance Full-Stack Developer — Self-employed

Remote | 2017 – 2018

- Delivered SEO-optimized WordPress websites with custom themes, plugins, and performance tuning
- Built cross-platform mobile applications using React Native with Firebase, Stripe, and Maps API integrations
- Managed full project lifecycle: requirements, design, development, testing, and deployment
- Served clients in France, Tunisia, and the UAE across diverse industry sectors

KEY PROJECTS

ERP System – Finance, HR & Payroll
Spring Boot • RabbitMQ • Next.js • PostgreSQL • Microservices

ADDITIONAL

- Available for relocation abroad
- Open to remote & hybrid positions
- Driving license
- Open to work in EU / Gulf / Canada

End-to-end ERP platform with modular architecture, real-time payroll computation, multi-role dashboards, and full audit trail. Serving 500+ daily users with 99.9% uptime.
